- Entrepreneurship
- Manager
- Banking
- Marketing
- Administrative Assistant
- Information Systems
- Teaching

## TAYLOR HIGH SCHOOL WALL-TO-WALL CAREER ACADEMIES!

Taylor School District is proud to present the new Taylor High School Wall-to-Wall Career Academies that will provide an individualized learning experience for every student. The goal is for every student to begin focusing on future career interests and goals.

Utilizing their previous investigations with Career Cruising, MI Bright Future, as well as individual interests, all students will select a theme-based academy. The benefit of this type of enrollment is to create an atmosphere that is more personalized for each student. The students will enter into an academy where they will gain a sense of belonging by being part of a smaller learning community of students with similar interests. They will be engaged and supported by a core group of teachers within their academy.

Through the academies, students will be offered the opportunity to earn industry certifications and explore real-world experiences. Students will also prepare for a post-secondary education at a community college or a four-year university program.

The academy experience will be invaluable for all students! It will help make them aware of the importance and relevance of education as they prepare for their future.

- Construction
- Welding
- Electrician
- Plumber
- Engineering
- Manufacturing
- Automotive
- Aeronautics
- IT

## Early College Program

Through a collaborative partnership with Wayne County Community College (WCCC) and Taylor School District students can take eight college courses. The only financial obligation to the student and family is the cost of the textbooks.

Each student will take two college courses each semester at WCCC. Taylor Schools will provide the transportation to campus; however, students must provide their own transportation home.

These college courses apply to the student's high school transcript and are counted for high school graduation. Furthermore, these same college credits apply to almost 70 colleges and universities within Michigan.

The courses students will take include: Fundamentals of Speech, Introductory Psychology, Introduction of Visual Arts, Introduction to Sociology, American Government, Introductory Biology, English 119 and English 120.

One feature of many in this program is that students take these courses with their high school peers.
